

FOLDABLE SPACE-SAVING RACK
Folds to half the size, no floor bolting required

The Force USA MyRack Space Saver is a customizable folding full rack that works extremely well without needing to be bolted to the floor. It folds and stores in half the dimensions while remaining stand-alone, with pop-pin technology for a fast setup. Built from 12-gauge steel with a 272kg max capacity, it arrives complete with a multi-grip chin-up bar, box safety spotters, dip handle, core trainer and J-hook pro.
