

SELECTORIZED CABLE TOWER
A superior cable system, standalone or rack-mounted

Crafted through customer insight by REP's Colorado engineering team, the Adonis cable tower offers exceptional flexibility as a standalone unit, a power rack extension, or an integrated part of a modular storage system. The selectorized version features a 95kg weight stack with hot-rolled steel plates and stainless-steel horns, delivering a 1:1 ratio for lat pulldowns and low rows and a 2:1 ratio for the adjustable trolley, supporting up to 204kg of resistance with Olympic plates or bands.

FEATURES

- ✓

Patent-pending, one-hand adjustable trolleys
- ✓

Telescoping footplate, 7 adjustable positions
- ✓

Aluminum pulleys with 180° front swivel
- ✓

Built-in pegboard storage, handles & bars included
