

DUAL-STACK FUNCTIONAL TRAINER
REP's first functional trainer, engineered from the ground up

The Arcadia is REP's first functional trainer, designed by its Colorado engineering team from the ground up with unique trolleys, 10lb-increment weight stacks, and knurled handles. It offers 32 cable positions with dual weight stacks reaching 100kg (220lb) each at a 2:1 ratio, galvanized wire cables with raw-steel cores, and aluminum pulleys with 180° swivel. Integrated band pegs push maximum resistance to 245kg (540lb), and a multi-grip chin-up bar and attachment storage boards round out the frame, all finished in metallic black powder coat.

FEATURES

- ✓

32 adjustable cable positions for natural movement
- ✓

Dual stacks, 2 x 100kg (220lb) at 2:1 ratio
- ✓

Multi-grip chin-up bar built into the frame
- ✓

Band pegs & storage boards, 150lb capacity each

EQUIPMENT SPECIFICATIONS

Pulley Ratio	2:1
Weight Stack	2 x 100kg (220lb)
Adjustability	32 adjustable cable position
Cable Travel	210cm per cable
Mainframe	High quality stainless steel uprights
Extra Features	Multi-grip chin up bar. 180 degree side-swivel aluminum pulley with bearing. Attachment storage board with hooks included. Resistance band pegs at each weight stack. Includes 2 Knurled D-handles.
Installation	Not included. Please refer to the option for assembly service.
Dimensions	91 (L) x 140 (W) x 205 (H) cm
Max Load	Cables: 245kg (540lb)
Surface Coat	Metallic black powder coating
Material	Steel
