

SL8.0 BIKE

Built for advanced home cardio, the SL8.0 bike combines high-end features with Gel Saddle technology for total performance.

Dual adjustable, the seat can be tailored to the user to ensure the best riding posture possible for reduced risk of injury and discomfort.

GEL SADDLE

The wide foot pedals provide stability and comfort to the rider, with the adjustable strap keeping the foot secure through each turn.

With a 7 kg flywheel at the heart of the bike, the SL8.0 offers a smooth rotation at both high and low cadence training.

PEDALS

The SL8.0's console provides live feedback to ensure that you are hitting your ride targets; whilst 24 resistance levels and 12 pre-set workouts; push each ride further.

Also offering MP3 input and a cooling fan, the Bluetooth enabled console links with the Reebok Fitness App; detailing your training whilst moving through Google Street View.
